

Common Questions Asked in Telephonic Interviews

Here is a list of questions you can expect during the telephonic round. It's best to be prepared for these as the interviewer will expect you to quickly rattle through the answers!

1. Tell me a bit about yourself.
2. Why do you want to be a data scientist / data engineer / data analyst / business analyst / ML engineer?
3. Tell me about a project you have done recently? What was the problem you were trying to solve? What were the challenges and how did you overcome them?
4. Tell me your strengths and weaknesses (3 each)?
5. Tell me about a project when you had a conflict with your manager / team leader / team members. What was the conflict? How did you resolve it?
6. Tell me about a time when you had to deliver a complex data science project in tight timelines. What challenges came because of this and how did you deliver the project?
7. Which was the most complex dataset you have worked with? What challenges did you face and how did you overcome them?
